

**STATE OF LOUISIANA
STATE LICENSING BOARD FOR CONTRACTORS**

7-149 CONCRETE CURB & GUTTER, SIDEWALKS & DRIVEWAYS

The examination for CONCRETE CURB & GUTTER, SIDEWALKS & DRIVEWAYS is a closed book exam consisting of 25 multiple-choice questions covering subject areas as Concrete, Forms, Estimating, and Tools and Techniques.

The reference materials listed below should be helpful to candidates in preparing for this examination. This list, however, is NOT intended as a list of required reading for the examination. Also, these materials may NOT contain all the information needed to be competent in this trade or to pass the examination. We try to keep this list current and consisting of industry-standard materials. Please note that some of these references may go out of print or be unavailable. *This reference list is just a representative sample of the materials that are available that contain useful information.* Some of the books below may overlap in much of the material contained. Therefore, it is suggested that you might consult any two or three of the books below, or similar references. These books may be available through your library's stock or through your library's service called *Inter-Library Loan*. These books may also be available by ordering through a bookstore or directly from the publisher, (if still in print).

Sources that might be consulted in preparing for this examination might include the following:

Concrete Construction and Estimating; Avery, Craig, Editor; Craftsman Book Co.; Carlsbad, CA; 1981

Louisiana Standard Specifications for Roads and Bridges; Louisiana Department of Transportation and Development, Office of Highways, Baton Rouge, LA.
